Have been investigated by UL in accordance with the
Standard(s) indicated on this Certificate.

Standard(s) for Safety:
Additional Information:

See Addendum Page 2

See the UL Online Certifications Directory at
www.ul.com/database for additional information

Only those products bearing the UL Certification Mark should be considered as being covered by UL's
Certification and Follow-Up Service.

The UL Recognized Component Mark generally consists of the manufacturer's identification and catalog
number, model number or other product designation as specified under "Marking" for the particular
Recognition as published in the appropriate UL Directory. As a supplementary means of identifying products
that have been produced under UL's Component Recognition Program, UL's Recognized Component Mark:
, may be used in conjunction with the required Recognized Marks. The Recognized Component Mark is
required when specified in the UL Directory preceding the recognitions or under "Markings" for the individual
recognitions.

Recognized components are incomplete in certain constructional features or restricted in performance
capabilities and are intended for use as components of complete equipment submitted for investigation rather
than for direct separate installation in the field. The final acceptance of the component is dependent upon its
installation and use in complete equipment submitted to UL LLC.

Look for the UL Certification Mark on the product.

Bruce Mahrenholz, Director North American Certification Program
UL LLC

CERTIFICATE OF COMPLIANCE

Certificate Number 20181015-MH70341
Report Reference MH70341-20170615
Issue Date 2018-OCT-15

This is to certify that representative samples of the product as specified on this certificate were tested according to the current UL requirements.

Garment trim for Protective Clothing for Structural Fire Fighting.

The following trim materials may be used to meet the minimum requirements for visibility marking materials per NFPA 1971-2013:

Trim Model	Minimum Width (in.)	Color	Fluorescent	Retro-reflective
MXTS01	3	Fluorescent Lime/Yellow with a minimum 16mm wide Retroreflective Silver Stripe in the Center	Y	Y

The following trim materials may only be used as accessory visibility markings since they do not meet the minimum requirements for fluorescence per NFPA 1971-2013:

Trim Model	Minimum Width (in.)	Color	Fluorescent	Retro-reflective
MXTS01	<3	Fluorescent Lime/Yellow with a Retroreflective Silver Stripe in the Center	Y	Y

All trim materials meet the minimum requirements for NFPA 1977-2011 and NFPA 2112-2012.

Standards:

NFPA 1971, Standard on Protective Ensembles for Structural Fire Fighting and Proximity Fire Fighting;
NFPA 1977, Standard on Protective Clothing and Equipment for Wildland Fire Fighting;
NFPA 2112, Standard on Flame-Resistant Garments for Protection of Industrial Personnel Against Flash Fire.
